HSE Policy Statement

Health safety and environment (HSE) management and execution are the primary value at **AL BASRA AL RAEDA COMPANY**. This Health and Safety Policy Statement recognize our obligations under the Health and Safety at Work Act 1974, OSHA regulations, Iraqi statutory rules regulation and policies.

AL BASRA AL RAEDA COMPANY has a moral and legal obligation to safeguard, as far as is reasonably practicable, the health, safety and welfare of their employees and anyone, may be affected by the actions of the employees, or activities.

AL BASRA AL RAEDA COMPANY is fully committed to:

Achieve zero injuries, zero cases of work-related ill health and zero dangerous occurrences. Eliminate Quality non-conformances and HSE accidents. Set Quality & HSE performance objectives, measure results, assess and continually improve. Minimize our impact on the environment through pollution prevention, reduction of natural Resource consumption and emissions, and the reduction and recycling of waste. Apply our technical skills to all HSE aspects in the design, engineering, services and products. Communicate openly with stakeholders and ensure an understanding of our HSE policies, Reward outstanding HSE performances.

We fully accept our obligations and responsibilities, which will be achieved by:

- ❖ Working together in a safe and environmentally friendly manner, in compliance with Client and statutory requirements and applicable global and local HSE legislation.
- ❖ Recognizing and ensuring the fact that HSE is a management function and is the responsibility of every management, site team member and every front-line supervisor including subcontractor's personnel.
- ❖ Identifying hazards via pre-risk assessment and simulation to minimize potential risk.
- ❖ Involving all personnel from top to bottom in hazard recognition and hazard elimination.
- ❖ Conduct rigorous internal and external auditing to ensure compliance with the requirements of ISO 45001-2018 and ISO 14001-2015.
- ❖ Hiring qualified & competent personnel to conduct the activities so they will not expose themselves, client, and the members of the public to unnecessary risk to the health and safety.
- ❖ When incidents/accidents occurred, we will conduct investigations to identify the exact cause of the incident, analyze the results of all incidents and utilized these results to prevent reoccurrence.
- ❖ Ensuring member of our staff and subcontractors are competently trained in HSE knowledge and techniques via training courses and that they comply with all HSE regulations.

The aforementioned HSE policy and activity performances of each field shall be published both inside and outside of organization. We shall seek continual environmental improvement by conducting regular reviews and monitoring the HSE management system and relevant processes. This Policy shall be regularly reviewed at least every 12 months to ensure ongoing suitability.
